

NPPA #1 — Modular Cabinet Platform

Supplemental Architecture Figures (English)

PPA #3, #4, #5, #6, #7 — new figures in addition to originally filed USPTO FIG. 1–4

Micro Shop / Mikhail — September 2026

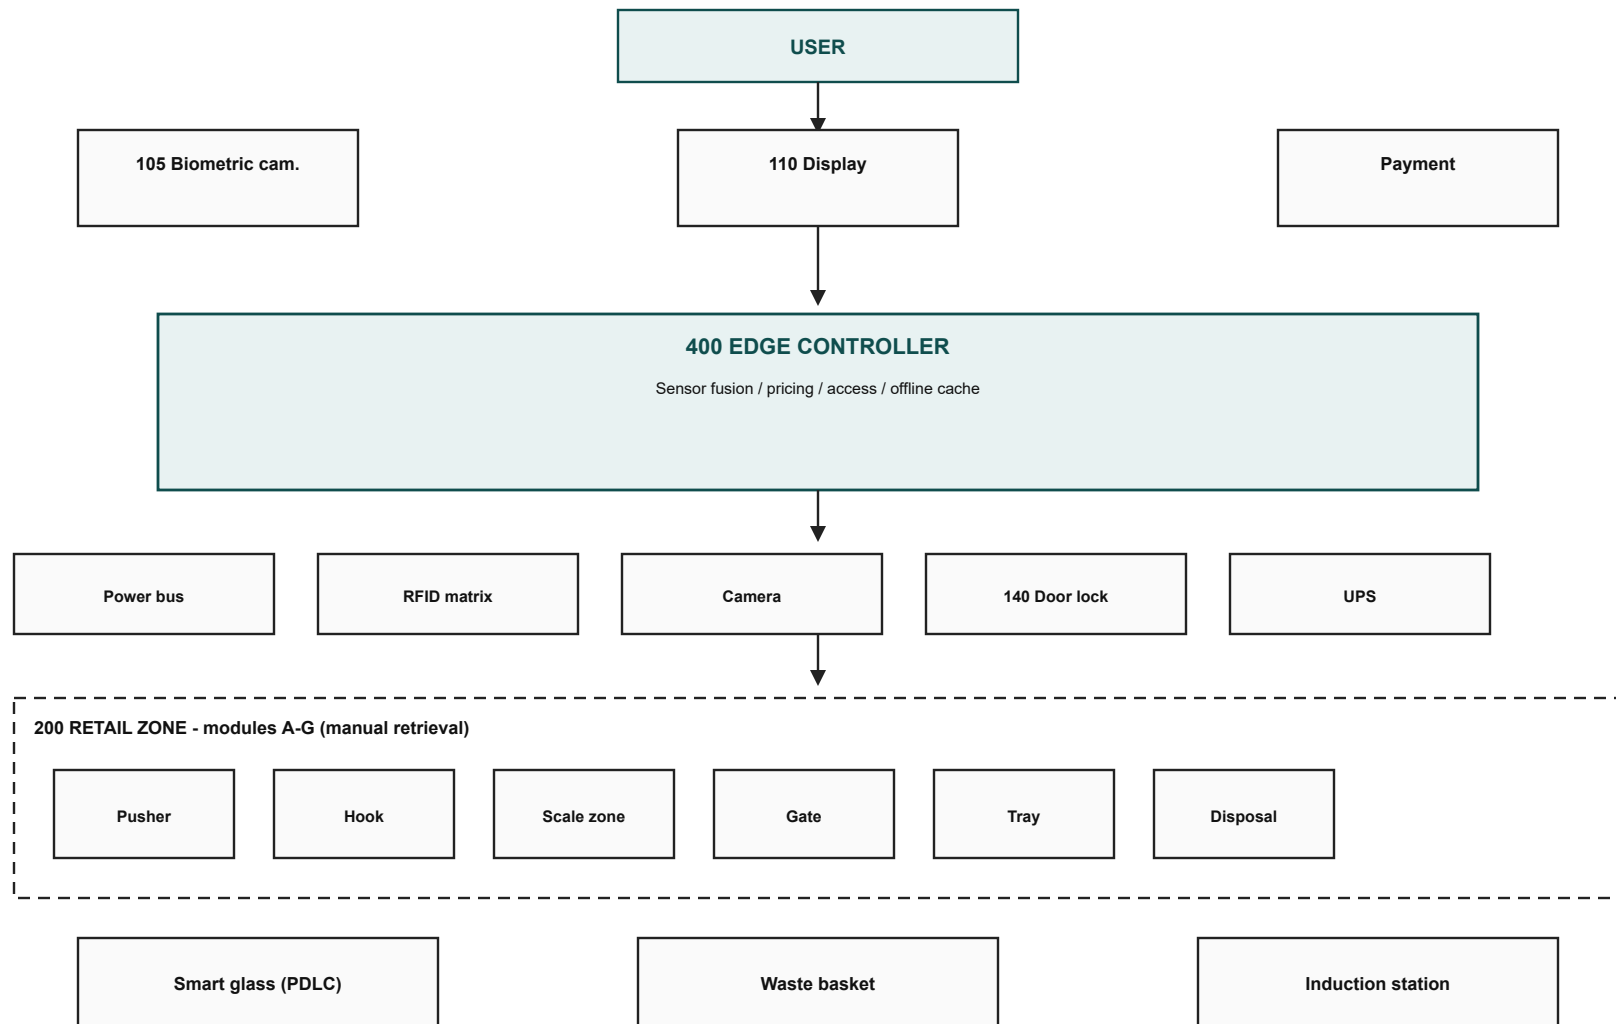

For formalization by draftsman — Shalchi Law

FIG. S1 — PPA #3 — Modular Smart Cabinet Platform Architecture

Sensor fusion / smart glass / dynamic pricing / manual retrieval / modules A–G

PPA #3 - Modular Smart Cabinet Platform Architecture

Sensor fusion / smart glass / dynamic pricing / manual retrieval

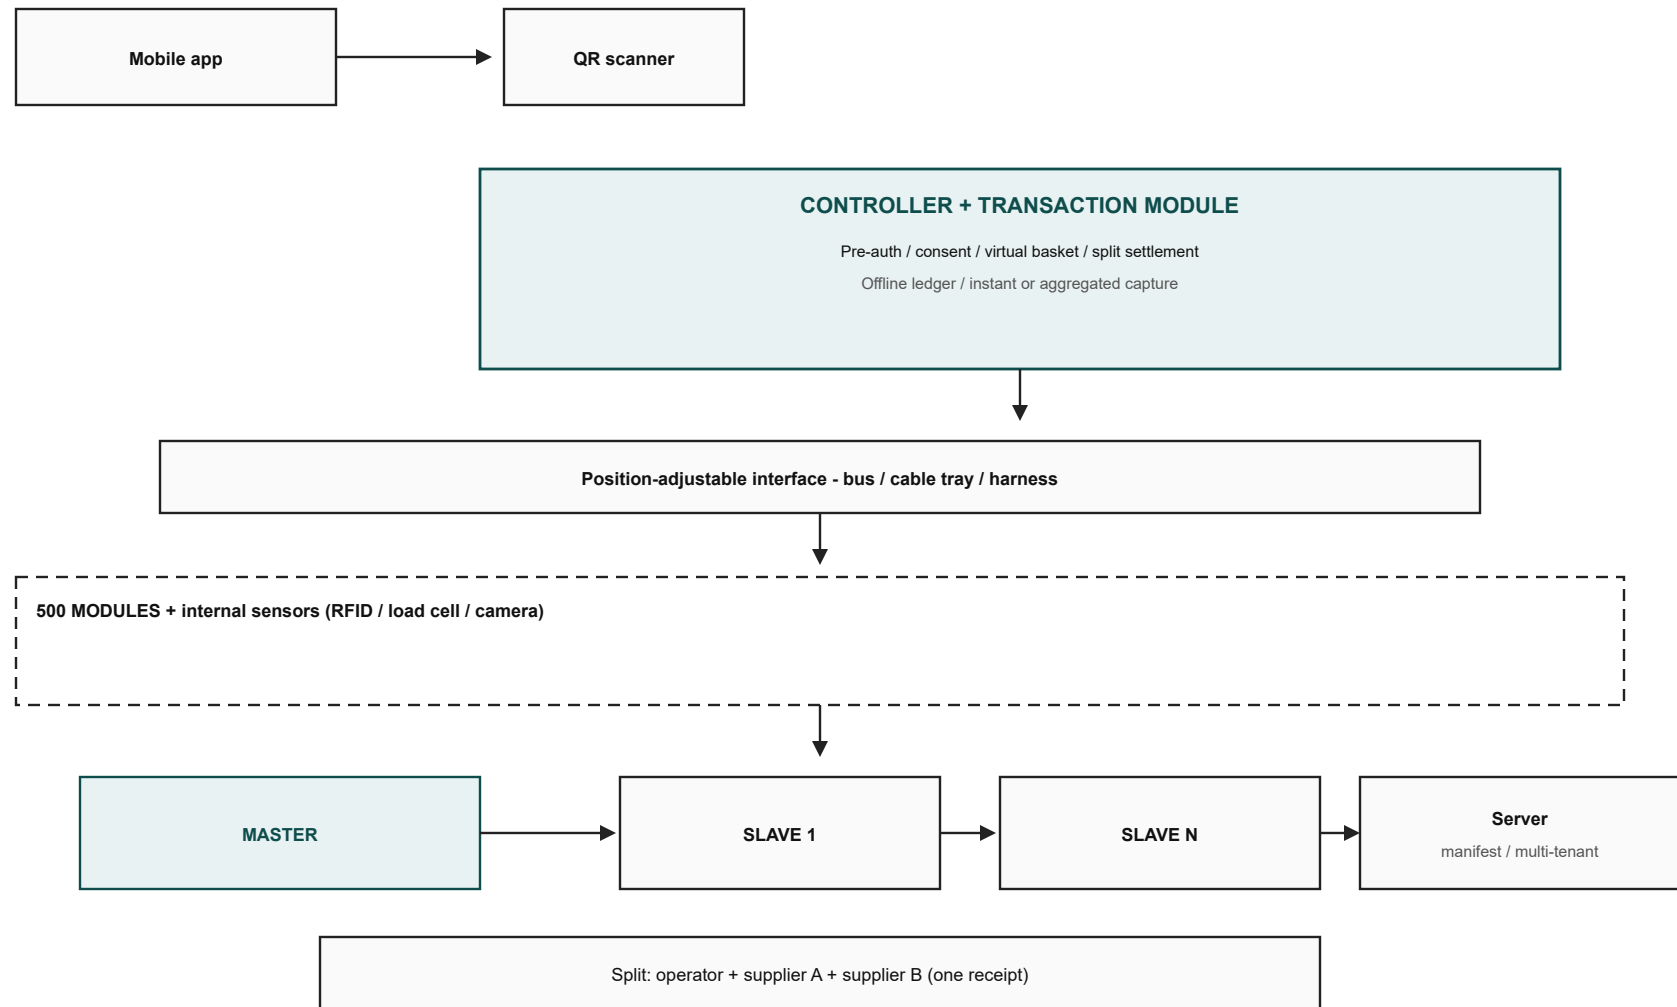

Supplemental figure - components in PPA #3 spec but not all shown in filed FIG. 1-4.

FIG. S2 — PPA #4 — Token / Split Payments / Multi-Tenant

QR session / consent / master-slave / offline ledger / split settlement

PPA #4 - Token / Split Payments / Multi-Tenant

QR session / consent before unlock / master-slave / offline ledger

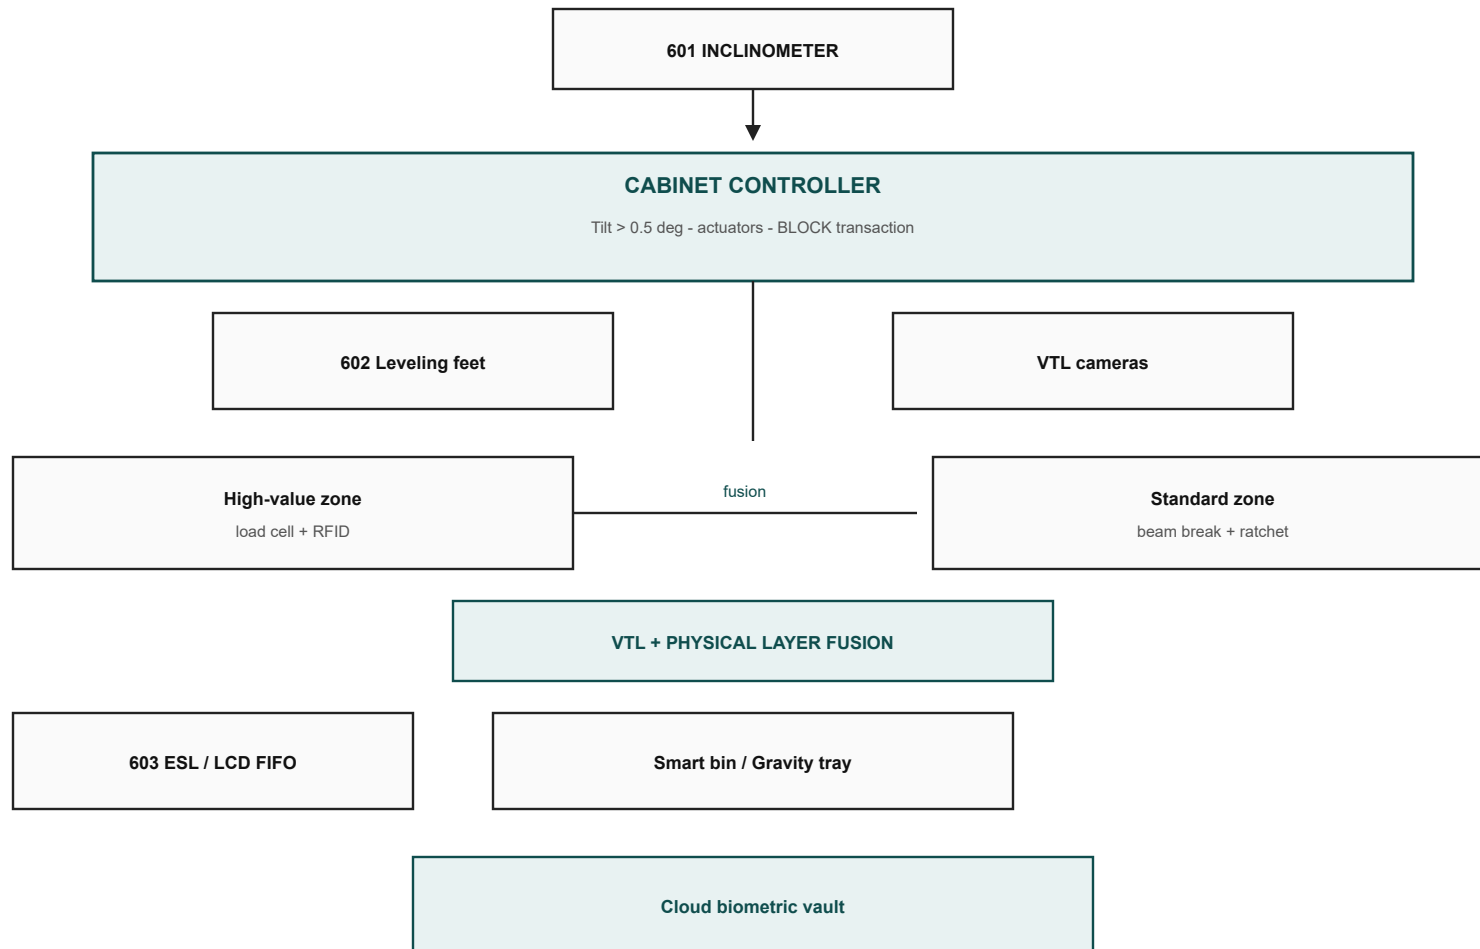

Supplemental figure - PPA #4 tokenized access and split settlement architecture.

FIG. S3 — PPA #5 — Leveling / VTL / ESL-FIFO

Motorized leveling / Visual Tracking Layer / ESL FIFO / cloud biometrics

PPA #5 - Leveling / VTL / ESL-FIFO

Motorized feet / visual tracking layer / cloud biometrics

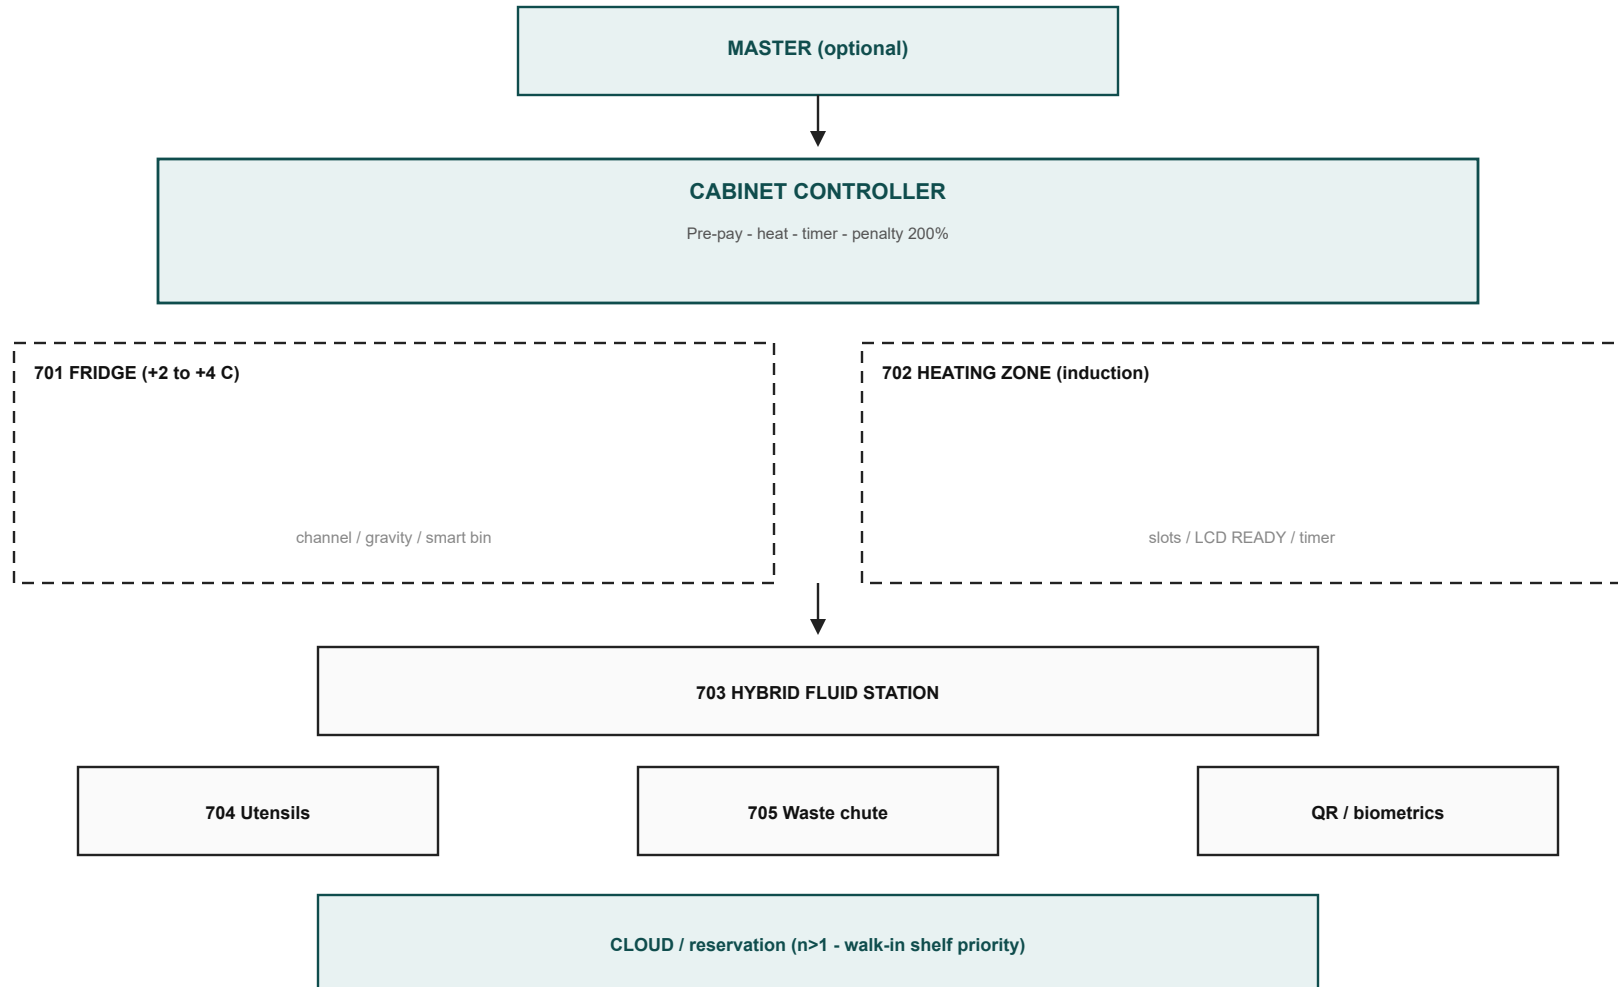

Supplemental figure - auto-leveling, dual-layer fusion, ESL with FIFO queue.

FIG. S4 — PPA #6 — Dual-Zone / Heating / Fluid / AI Pricing

Pre-pay before heat / abandonment penalty / master-slave / reservation

PPA #6 - Dual-Zone / Heating / Fluid / AI Pricing

Pre-pay before heat / abandonment penalty / master-slave

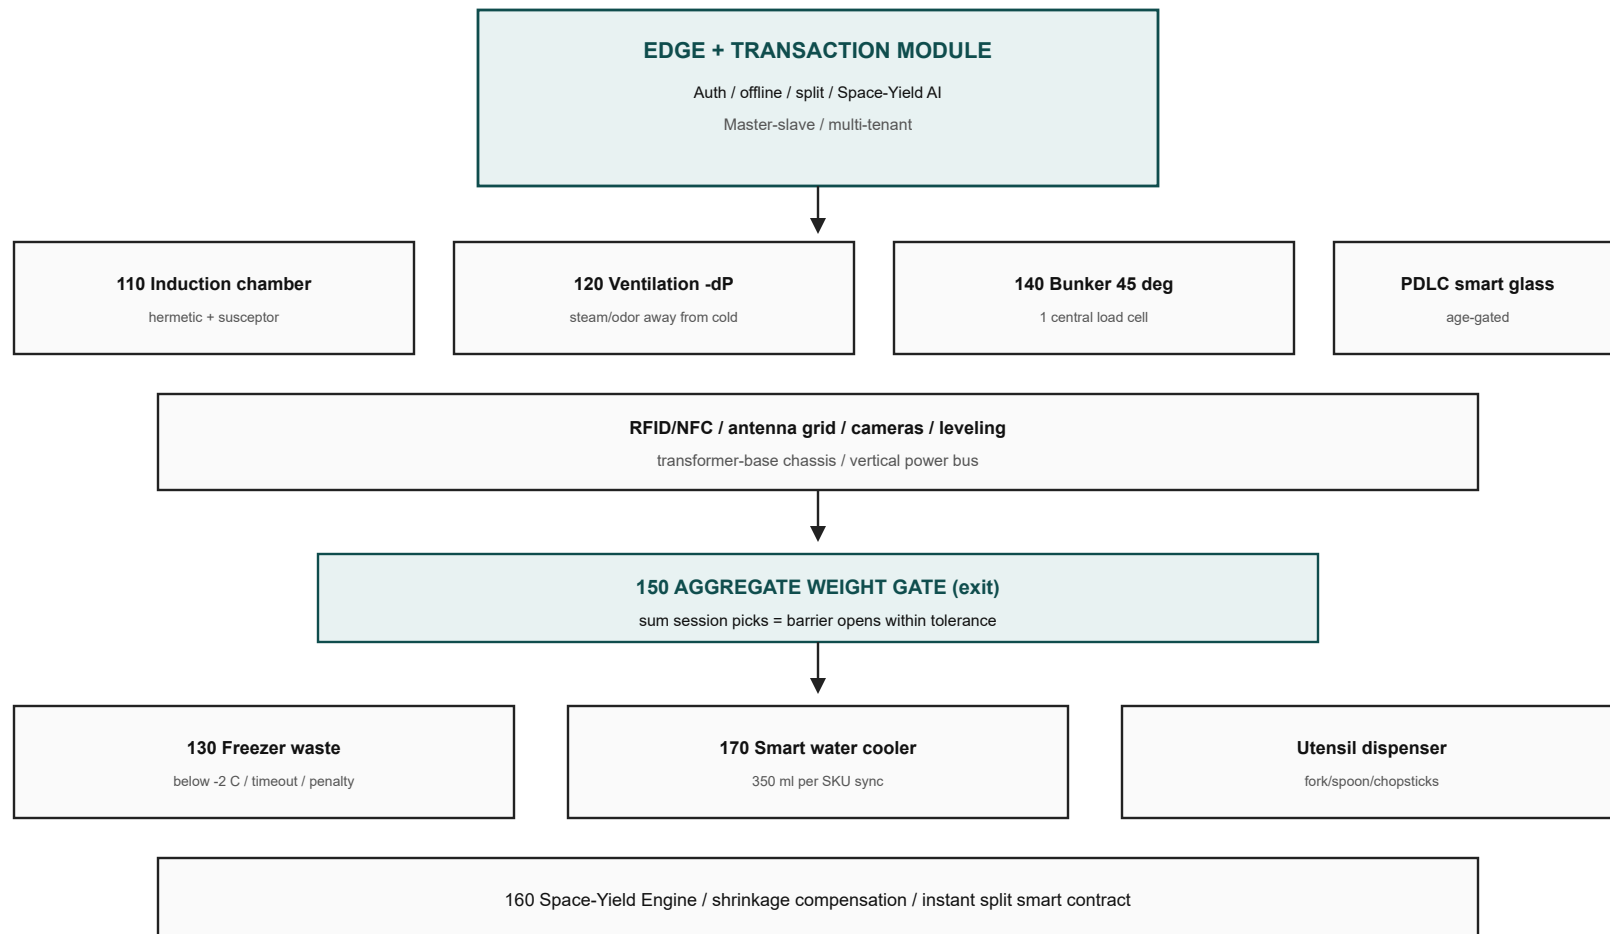

Supplemental figure - select, pre-pay, heat, pickup or penalty plus waste route.

FIG. S5 — PPA #7 — Ecosystem Extension (same filed FIG. as #6)

Hermetic heat / $-\Delta P$ vent / freezer waste / 45° bunker / Σ exit gate / Space-Yield

PPA #7 - Ecosystem: Hermetic Heat / -dP / Freezer / 45 deg Bunker / Sum Gate

Same title as PPA #6 / different claims 1-5 / Space-Yield / instant split / open retail

Filed FIG. 1-4 same as PPA #6; supplemental content in claims 1-5 and this diagram.
